## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I claim(s) 1-86, drawn to an error correction/detection ability of the address signals.

Group II, claim(s) 87-102, drawn to optical disc records/track –data layout.

Group III, claim(s) 103-124 drawn to optical record medium detection method.

2. The inventions listed as Groups I, II and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- a) Group I lacks any special technical feature with respect to the detection/suitability of the record medium and the apparatus contain such.
- b) Group II is merely drawn to optical records, and is ignorant as to any technical feature with respect to either that required in Groups I or II
- c) Group III lacks as presented in the independent claim(s) any requirement for error correction for patentability.

Due to the divergence of the above noted Groups no telephone call was made to applicants' representative to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2653

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicants are given 1 Month within which to respond to the above restriction requirement.
